ABOUT

Front end Developer with 3 years of experience. Looking forward for a career in Software Development with challenging roles and responsibilities that would capitalize my skills.

EXPERIENCE

Infosys, Mysore India—Power Programmer

JUNE 2019 - FEB 2022

Project - Allstate Advisor Pro - React Developer
Advisor pro is an insurance webapp for Allstate agents.

- Translated wireframes into quality and reusable react components.
- Identification and Implementation of the code improvements that helped to tune system performance and decrease latency issues.
- Removed redundancy by creating shared components which can be used across multiple apps in the entire application.
- Used Publish/Subscribe pattern for the interaction of various apps within the application.
- Enabled and on boarded the application for Allstate Customer Care Center.
- Contributed to Allstate React Pattern Library by creating new designs.
- Conducted educational sessions for new team members about the architecture , development, and publishing.

Infosys London,UK—Power Programmer

FEB 2022 - PRESENT

Project - PWC Product Beacon - Angular Developer
Product Beacon is a web application to show clients how tax is calculated.

- Created reusable angular components according to the wire frames.
- Participated in peer code reviews and ensuring code compliance and company standards.
- Improved the existing PWC's Appkit library by identifying the bugs and providing the enhancements.
- Used HiCharts angular to display graphs in the application.
